

Product Name: FUSION
Product Code: IP09

Fusion

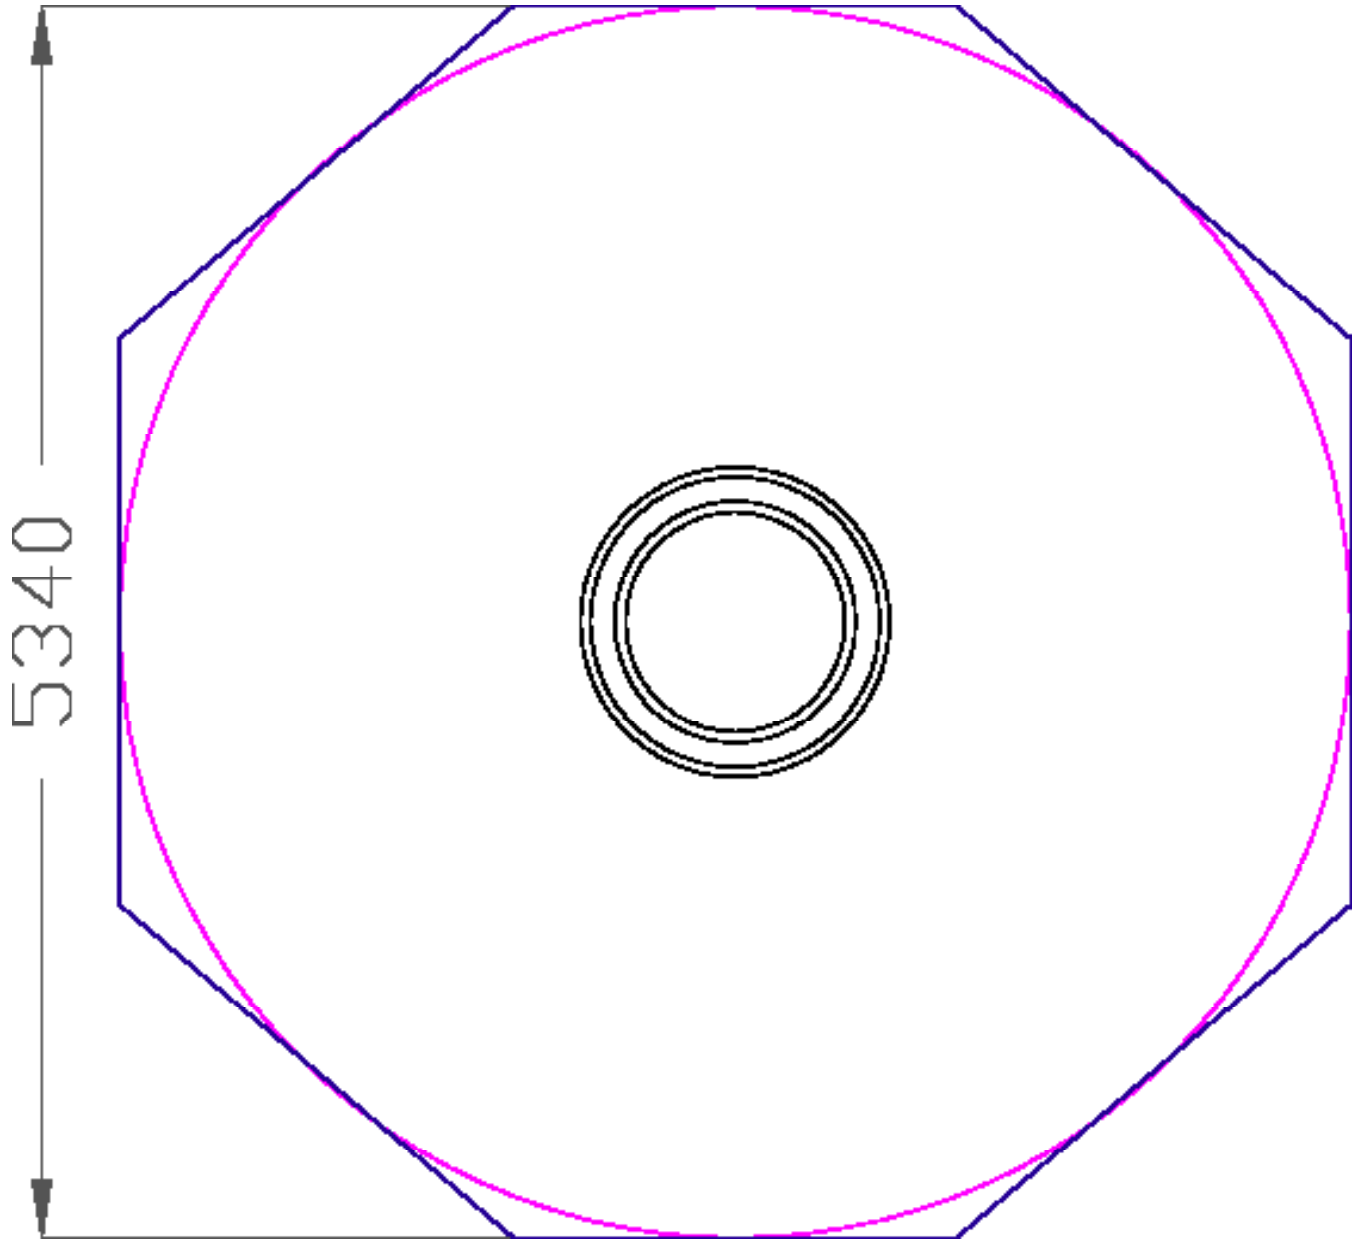

A fusion of fun and excitement for all, the Fusion is a smaller more compact unit that spins and rocks like the Revolve. It is cost effective, dynamic and due to its shape and design, highly inclusive. The wide rim, utilising a non-slip Polydek surface aids those who are able to transfer from a wheelchair and can also be used to sit on and propel the roundabout with your feet.
